Copperline, Inc.

Spend and Expense Policy

Effective January 1, 2025. Owner: Finance.

1. Receipts

Every company card charge of $50.00 or more needs an itemized receipt attached in Ramp. Charges below $50.00 do not need a receipt.

Every vendor bill needs the vendor's invoice attached, whatever the amount.

2. Approvals

A card charge of $250.00 or more must be approved by the cardholder's manager.

A vendor bill of $1,000.00 or more must be approved by the requester's manager before it is paid.

A vendor bill of $10,000.00 or more must also be approved by the Chief Financial Officer before it is paid. This is in addition to the manager's approval. When the requester's manager is the Chief Financial Officer, one approval covers both.

Nobody approves their own spending.

3. Accounting notes for the finance team

The fiscal year is the calendar year.

Costs are recorded in the year the goods or services are delivered. At year end the Controller accrues work that vendors have delivered but not yet billed, and reverses the accrual on the first day of the new year.

Annual contracts paid in advance are recorded in Prepaid Expenses and expensed month by month over the contract term.
